Executive Summary

Accessibility Policy & Multi-year Accessibility Plan

The following policy and plan has been established by First Capital Realty Inc. (“FCR”) to comply with the standards set forth in Regulation 191/11, “Integrated Accessibility Standards” (IASR) under the Accessibility for Ontarians with Disabilities Act, 2005 (AODA).

Commitment to Persons with Disabilities

FCR is committed to treating people with disabilities in a way that respects their dignity and independence. We believe in integration, equal opportunity and are committed to meeting the needs of people with disabilities in a timely manner. We will do so by preventing and removing barriers to accessibility and meeting accessibility requirements under the Accessibility for Ontarians with Disabilities Act.

Accessibility Council

FCR has established an internal Accessibility Council which is composed of members from various departments of the company and is responsible for coordinating efforts to ensure that FCR is compliant with its obligations under the AODA. This Council also works to inspire leadership through the services provided by FCR including:

- helping with accessibility related issues both with internal employees & external customers & clients, vendors
- supporting and promoting FCR accessibility tools and guides
- supporting or coordinating other initiatives, as shown throughout this document
- developing FCR accessibility standards and practices

Accessibility Plan

FCR has developed a Multi-Year Plan that describes how FCR intends over time to become a more accessible organization and sets forth the principles of how FCR provides service to and otherwise interacts with people with disabilities. The Plan will be posted on the company website, reviewed and updated periodically by the Accessibility Council, at a minimum once every five years and will be provided in an accessible format upon request.

Training

FCR will continue to provide training to Ontario employees on Ontario’s accessibility laws and on the Human Rights Code as it relates to people with disabilities. Training will be provided in a way that best suits the duties of staff members.

FCR will take the steps to ensure staff in Ontario is provided with training needed, as soon as practicable, to meet Ontario’s accessibility law.

New employees will be trained as part of the New Hire On-boarding process. This will include Customer Service Standards (CSS) and the new IASR & Human Rights training.

Kiosks

FCR will ensure the needs of people with disabilities are considered when and if designing, procuring, or acquiring self-service kiosks by January 1, 2014.

Information and communications

FCR is committed to meeting the communication needs of people with disabilities. We will, upon request, consult with people with disabilities to determine their information and communication needs.

Accessible Format and Communication

Feedback

FCR will, upon request, take steps for all publicly available information in Ontario to be made available in accessible formats for persons with disabilities, in a timely manner that takes into account the person's accessibility needs due to a disability. FCR will consult with the person making the request in determining the suitability of an accessible format or communication support.

Accessible Website and Web Content

FCR will take the necessary steps to make any new websites and web content on those sites, that we directly or indirectly control through a contractual relationship, conform to the World Wide Web Consortium Web Content Accessibility Guidelines (WCAG) 2.0,

- Level A by January 1, 2014, except where it is impracticable and
- Level AA by January 1, 2021, except where it is impracticable

Employment

FCR is committed to fair and accessible employment practices and will take steps to notify applicants and employees that accommodations are available upon request, to people with disabilities during the recruitment, selection and assessment process and for the duration of employment with FCR.

FCR will implement and put in place a process for developing individual accommodation plans and return-to-work policies for employees in Ontario that have been absent due to a disability.

Steps will be taken by January 1, 2016 to ensure the accessibility needs of employees with disabilities are taken into account during performance management, career development & redeployment processes:

- Upon request, employees with disabilities will have an individual accommodation plan developed by Human Resources in consultation with the employee. The plan will include consideration for performance management, career development and redeployment processes.

Design of Public Spaces

FCR will meet the accessibility standards for the Design of Public Spaces when building or making major modifications to public space in Ontario by January 1, 2017. FCR will put procedures in place to prevent disruptions to its accessible parts of its public spaces. In the event of disruption to the accessible parts of public space, FCR will notify the public of the service disruption and alternatives available.

Public Spaces include:

- Outdoor paths of travel, such as sidewalks, ramps, stairs, curb ramps, rest areas;
- Accessible off street parking;
- Service related elements such as service counters, fixed queuing lines and waiting areas.
